Copyright/Financial Disclosure

The Journal of Clinical Psychiatry requires the express transfer of copyright to Physicians Postgraduate Press, Inc., so that the author(s) and Physicians Postgraduate Press, Inc., are protected from misuse of copyrighted material. Each author must sign and submit the required "Authorship Statement, Copyright Transfer, Financial Disclosure, and Acknowledgment Permission" form, available at www.psychiatrist.com/authors/index.htm.

Permissions Requests

All editorial material published in *The Journal of Clinical Psychiatry* is the property of Physicians Postgraduate Press, Inc., unless specifically stated.

1. Requests for permission to publish may be submitted by regular mail, fax, or e-mail. Please include full name, address, phone number, fax number, and e-mail address.
2. Send requests to:
Physicians Postgraduate Press, Inc. fax: (920) 457-0501
Attn: Permissions Editor e-mail: permissions@psychiatrist.com
850 Ridge Lake Blvd, Suite 300
Memphis, TN 38120
3. Permission will not be granted until the article has been published in *The Journal of Clinical Psychiatry*.
4. Permission is not granted to place the full text of *The Journal of Clinical Psychiatry* articles on other Web sites.

Information Required for a Permissions Request

1. Requestor's Information:
 - Person's name, title, telephone, fax, and e-mail (if available)
 - Company's name and postal address
2. Article Information:
 - Article title
 - First bylined author
 - Volume number and issue dates
 - Page range of article
 - The copyrighted item to be used from the article, ie, the specific chart, table, figure, graph, or other illustration, abstract, quote, or full article
3. Intended Use of the Requested Item:
 - Title of the work in which the item is to appear
 - Author/editor/compiler
 - Publisher, with full address
 - Edition number
 - Publication year
 - Approximate press run of work
 - Form of reproduction (print, online, language)
 - Sponsorship, funding, or retail price (if a book)
 - Intended audience(s)

Embargo

Articles are embargoed until they are published online at PSYCHIATRIST.COM. Contact JCPembargo@psychiatrist.com.

Advertising

Principles

Physicians Postgraduate Press, Inc., adheres to the highest ethical standards when interspersing advertisements throughout the journal: (1) placement is held in the strictest confidence; (2) ads on a specific drug or topic are not placed immediately adjacent to editorial material of the same; (3) for non-premium positions, ads are rotated throughout the book from issue to issue.

Contacts:

- For print ads, send an e-mail to journalads@psychiatrist.com.
- For Classified or Conference ads, either in print format or through the journal's Web site, send an e-mail to journalads@psychiatrist.com.
- For online ads posted either on the journal's Web site or in an E-Lert, send an e-mail to webads@psychiatrist.com.

Rate Sheets

Available online through the journal's home page at PSYCHIATRIST.COM under "Information for Advertisers."

Disclaimer

Acceptance of any and all advertising in this publication, or any other material published by Physicians Postgraduate Press, Inc., does not imply endorsement by Physicians Postgraduate Press, Inc.

To receive your credit certificate immediately for free, complete this activity online.

PSYCHIATRIST.COM

Keyword: April

Articles are selected for credit designation based on an assessment of the educational needs of CME participants, with the purpose of providing readers with a curriculum of CME articles on a variety of topics throughout each volume. Activities are planned using a process that links identified needs with desired results.

To obtain credit, read the material and complete the Posttest and Registration Form on pages 572–573 *or* go to PSYCHIATRIST.COM and complete the Posttest and Evaluation online.

CME Objectives

After studying the articles by Cohen-Mansfield et al and Levkovitz et al, you should be able to:

- Use evidence-based, appropriate stimuli as resources permit to improve affect in patients with dementia
- Choose appropriate evidence-based treatment options for patients with dysthymic disorder

Accreditation Statement

The CME Institute of Physicians Postgraduate Press, Inc., is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians.

Credit Designation

The CME Institute of Physicians Postgraduate Press, Inc., designates this journal-based CME activity for a maximum of 2.0 *AMA PRA Category 1 Credits™*. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

Date of Original Release/Review

This educational activity is eligible for AMA PRA Category 1 Credit through April 30, 2014. The latest review of this material was November 2010.

Financial Disclosure

All individuals in a position to influence the content of this activity were asked to complete a statement regarding all relevant personal financial relationships between themselves or their spouse/partner and any commercial interest. The CME Institute has resolved any conflicts of interest that were identified. In the past 3 years, Alan J. Gelenberg, MD, Editor in Chief, has been a consultant for Eli Lilly, Pfizer, Best Practice, AstraZeneca, Wyeth, GlaxoSmithKline, ZARS Pharma, Jazz, Lundbeck, Takeda, and eResearch Technology; has received grant/research support from Eli Lilly and GlaxoSmithKline; and has been a stock shareholder of Healthcare Technology Systems. No member of the CME Institute staff reported any relevant personal financial relationships. **Faculty financial disclosure appears with each article.**

This pretest is designed to facilitate your study of the material.

- 1. You care for patients with dementia in a nursing home, and they are at risk for behavioral problems and depression resulting from boredom, loneliness, and inactivity. Which stimuli would provoke the greatest pleasure among these patients?**
 - a. Live social stimuli (ie, real babies, pets, people)
 - b. Simulated social stimuli (ie, dolls, toy animals, respite videos)
 - c. Individualized stimuli related to the person's self-identity
 - d. Musical stimuli
- 2. Patients with dysthymic disorder are ___ patients with major depressive disorder to experience therapeutic benefits from antidepressant agents, according to meta-analysis results.**
 - a. More likely than
 - b. Less likely than
 - c. As likely as

For Pretest answers and Posttest, see pages 572–573.
