

Participants may receive a maximum of 2.0 *AMA PRA Category 1 Credits™* by reading each CME article and correctly answering at least 70% of the questions in the Posttest.

To take this Posttest online and earn credit immediately, go to PSYCHIATRIST.COM, Keyword: June.

Or, take the Posttest and send the completed Registration form to the address or fax number listed on the form.

Unanswered questions will be considered incorrect and so scored. Answer sheets, once graded, will not be returned. All replies and results are confidential. The CME Institute of Physicians Postgraduate Press, Inc., will keep only a record of participation, which indicates that you completed the activity and the number of *AMA PRA Category 1 Credits* you have been awarded. Correct answers to the Posttest will be available upon request after the submission deadline.

Accreditation Statement

The CME Institute of Physicians Postgraduate Press, Inc., is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians.

Jones et al

pp 775–779

1. **Among those with schizophrenia who subsequently developed alcohol use disorder (AUD), the majority were:**
 - a. Men
 - b. Also found to have a drug use disorder
 - c. Older when diagnosed with schizophrenia
2. **Which patient with schizophrenia has the greatest odds for developing AUD?**
 - a. Mr A, who has a low educational level
 - b. Mr B, whose father had AUD
 - c. Mr C, who has a history of violent offenses
 - d. Mr D, whose father had a history of violent offenses
3. **When patients with schizophrenia consume alcohol, the reason is “self-medication,” ie, to reduce psychotic symptoms or alleviate side effects of drugs.**
 - a. True
 - b. False
 - c. The evidence is equivocal

Timpano et al

pp 780–786

4. **Compared with nonhoarders, hoarders were more likely to be:**
 - a. Married
 - b. Male
 - c. Decisive
 - d. Procrastinators
5. **More than two-thirds of hoarders qualify for the specifier *with excessive acquisition*. Mr A is a compulsive buyer, Mr B gathers free items, and Mr C steals. Which patient probably has the greatest hoarding severity?**
 - a. Mr A
 - b. Mr B
 - c. Mr C
 - d. None—severity is not correlated with type of acquisition
6. **Which outcome variable was better predicted by associated features of hoarding than by the cardinal symptom of difficulty discarding possessions?**
 - a. Distress
 - b. General impairment
 - c. Social impairment
 - d. None—cardinal symptoms were always better predictors than associated features

Answers to Pretest: 1.a 2.d

REGISTRATION FORM

Circle the one correct answer for each question.

- 1. a b c
- 2. a b c d
- 3. a b c
- 4. a b c d
- 5. a b c d
- 6. a b c d

Deadline for submission

For a credit certificate to be issued, please complete this Registration Form no later than June 30, 2014. Online submissions will receive credit certificates immediately. Faxed or mailed submissions will receive credit certificates within 6 to 8 weeks.
